

Westmatch XXV Long Range

All categories will be split into three categories; Cowboy, Cowgirl, and Junior.

Rifle tables will be moved to give us the most room on the concrete shooting line.

All guns will be loaded and cleared on the firing line only!

During a cease fire – all guns will be open and empty.

Long guns may be shot standing, seated or prone; with or without shooting sticks.

We will have several shooting stations; a loaner set of shooting sticks will be available.

Shooters are encouraged to help out with spotting and scoring of other shooters.

Each shooter will be given 10 minutes to complete each scored event.

Each entry may get 5 total practice shots at their choice of the three practice targets.

These are not timed events.

The best score will be determined by most hits, with most hits on small target used as tie breakers.

Target distances shown are approximate.

Pistol Caliber Rifle

Fifteen shots

Load rifle as needed.

Three targets, one at 125 yards, one at 85 yards and a smaller target at 70

Alternate ten shots on the far targets, starting on the farthest target, then put 5 shots on the smallest.
